ERASMUS + 2019 "DEMOCRACY MATTERS!"

We introduce ourself…

OUR CITY - Nettuno

- <u>Nettuno</u> is a city overlooking the Tyrrenian sea and, alongside Anzio, it was known as the ancient city of "Antium", a termal area and holiday resort for the ancient Romans.

Later on, from the Middle Ages to the Unification of Italy, Nettuno became feud of several noble families in Lazio.
It was later reunited under a local administration during the Second World War.

- Nettuno still retains its historical identity. The Medieval Borough is the city's symbol, with its towers and little squares dating back to the 14th century.

USES & CUSTOMS

The most important <u>holiday</u> is the "Feast of the Madonna", celebrated the 1st Saturday of May. According to tradition, a procession is expected where, children dress up as angels, and girls with a traditional prioress costume (middle ages dresses) .

Typical <u>dishes</u> from Nettuno are among the most diverse, such as ricotta pie and some traditional Roman dishes as "Carbonara" and "Amatriciana"

SCHOOL (History)

We attend ITIS Trafelli high school (State Technical and Industrial Institute) founded by Luigi Trafelli, who lived in the 10th century.

He had a degree in Maths and Physics and invented a new type of unipolar direct current dynamo. He taught in many universities, also abroad, and wrote a philosophical treatise in his last years.
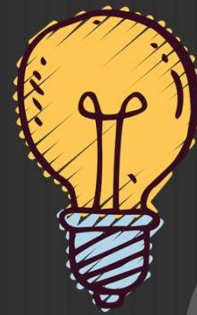

SCHOOL (Addresses)

Our school comprises of a *Scientific Lyceum* and a Technological Institute, which specializes in three different courses:

- *Mechanics and Mechatronics*
- *Electronics and Electro technical*
- *Informatics and telecommunications.*

A wide variety of lab rooms can be found, ranging from Chemistry labs and computer rooms, technical drawing class to Electronics and Mechanics labs.

SCHOOL (Projects)

Furthermore, our school guarantees a variety of stimulating projects every year.

❑The PON project, an extracurricular activity which gives every student the chance to improve their English and soft skills.

❑"Notte dei Ricercatori" (Researcher's Night) which allows you to visit research centers in the area and participate in the activities planned by them.

❑"School-Work" project, which proposes an innovative learning program and provides the opportunity to obtain a diploma through school education, corporate training and working experience.

❑Lastly, we have the Erasmus project, this year centered on promoting awareness of European Human Rights, that has given us the opportunity to meet students from other countries, to learn about new cultures and travel abroad.
